Summary

A current computer science student with 1 year of programming experience in full-stack web development and C++. I have taken various college courses in C++ and completed a coding bootcamp. I am fluent in English and Spanish with great communication skills. I am passionate about software and I am able to learn and adapt to any situation.

Education

Certificate, Full Stack Web Development- University of California Riverside October 2020-April 2021
Associates Degree, Computer Science- San Bernardino Valley College August 2019-December 2021

Technical Skills

Languages: JavaScript ES6+, HTML5, CSS3, SQL, NoSQL, C++,

Applications: GitHub, Heroku, MongoDB, MySQL

Tools: Node.js, React, Express, Handlebars, Query, Bootstrap,

Projects

Eat da burger

- Summary: Full stack web application of a burger logger that allows the user to add a burger to the devoured or not devoured list. The application uses Node, Express, html handlebars, CSS, and MySQL.
- Role: Sole Author

Recipe Blog

- Summary: Chef blog that allows people to view upload a recipe. I contributed to the back-end API-routes as well as the connection to the database. The webpage is deployed on Heroku. The application uses node.js, express handlebars, and MySQL as the database.
- Role: Back-end developer

Weather Dashboard

- Weather dashboard is front-end webpage that utilizes the open weather API. There are three separate API calls that render the daily and weekly weather of a city inputted into the search bar. The webpage uses JavaScript, html, CSS, Bootstrap and ajax for the API call.
- Role: Sole Author

Interests

My journey as a computer science major has led me to many new interests which include: • Learning Swift since I love my MacBook and Apple. (I do not mind using Windows) Topics in Machine learning and how it is used in the things around us.

Experience

Panda Express - Lead cook

December 2018

- Ensure food safety and standards are followed by all cooks on my shift in a timely manner.
- Maintain station stocked and ready for the next shift.
- Maintain temperature log of all items in fridge.
- Ability to multitask in an orderly fashion so that all preparation of vegetable and meat is complete ant the end of the shift.
